

ODOR BUSTER

Natural Odor Reducer

GENERAL INFORMATION

Odor Buster is a natural feed additive for odor reduction. It is a special formulation designed to improve live-stock and poultry performance and to reduce ammonia and hydrogen sulfide odor in animal waste pits. The active ingredients are saponins which are sapogenin glycosides derived mainly from yucca plant extracts. Saponins have been approved by the US FDA as a food adjuvant.

DIRECTIONS FOR USE

Odor Buster can be used in premixes, base mixes, concentrates and complete feed. It can also be mixed with water and used in water systems, medicators or sprayed directly onto animal waste to reduce odors and help sludge decomposition.

Animal Feed

| | |
|--------------------------------------|--------------------------------|
| Poultry (Broilers and Turkey) | 56 gram/ton in finished feed |
| Swine (Starter and Growers) | 112 grams/ton in finished feed |
| (Finishers and Sows) | 56 grams/ton in finished feed |

Animal Waste: Mix Odor Buster with 50-100 times of water and spray directly onto animal waste.

Net Contents: 50 Lbs.
