BIOSYNERGIZER™ 8-10-5

Biological Starter Fertilizer

BioSynergizer 8-10-5 is a premium liquid professional fertilizer designed for soil applications. It is a combination of two of our most popular products: Superzyme and Synergizer.

Now the highly available nutrients, micronutrients and humic acids found in **BioSynergizer 8-10-5** formula is combined with our superior biological products to create one of the most effective fertilizers on the market. By adding **BioSynergizer 8-10-5** to your fertilizer program you will visibly see increased growth rates, and overall increased plant health.

The fermentation by-products and humic acids in the formula stimulate beneficial biological activity in the soil which results in prolific root growth that gives grasses a jump start on the growing season.

Guaranteed Analysis

Total Nitrogen (N).....	8.0%
1% Water Soluble Organic Nitrogen	
Available Phosphoric Acid (P ₂ O ₅)..	10.0%
Soluble Potash (K ₂ O).....	5.0%
Iron (Fe).....	0.1%
Manganese (Mn).....	0.1%
Zinc (Zn).....	0.1%

BENEFITS OF USING BIOSYNERGIZER 8-10-5

- Readily available plant nutrients
- Biological ingredients
- Increased root growth
- Increased plant growth rates

DIRECTIONS FOR USE

Do not mix **BioSynergizer 8-10-5** with pesticides or fungicides. **BioSynergizer 8-10-5** can be applied with diluted fertilizer to reduce application cost. Before tank mixing with other fertilizers, always conduct a “jar test” for compatibility.

ALMOND TREES:

Apply 3 to 4 quarts of **BioSynergizer 8-10-5** per acre to the foliage after bud swell to popcorn stage, prior to bloom. Older trees may require another application 4-6 weeks later.
