ENDURANCE™ 18-3-6

GENERAL INFORMATION

Endurance 18-3-6 is a professional N-P-K liquid fertilizer with micronutrients iron, manganese, and zinc. **Endurance 18-3-6** contains a balance of quick release nitrogen for initial green-up and 50% slow release nitrogen for continuous feeding over an 8-12 week period. The phosphorus and potassium are readily available for both foliar and root uptake.

APPLICATION RECOMMENDATIONS

Endurance 18-3-6 is recommended for all turf grasses including Bentgrass, Rye, Fescue and warm season grasses. And it can be safely used on Rye overseeded areas. **Endurance 18-3-6** is compatible with fungicides, herbicides and insecticides with no special agitation required. Dilute with water according to desired nitrogen rate per 1,000 square feet.
