

## RESEARCH NOTE

**Crop:** Wheat

**Location:** Idaho, USA

**Treatment:** Both control and treated sections received the same fertilization program except the treated section received HUMAX through the water at a rate of one gallon per acre.

**Results:**

- A. There was less water runoff in the treated section.
- B. Yield

<b>Treatment (B)</b>	<b>BU/A</b>	<b>%</b>
Control	93	100
Treated	108	116
